

## Amalgam Waste Recovery Containers

Approved mailback containers for the recovery of contact and non-contact amalgam waste materials

# Amalgam Waste Recovery Containers

APPROVED MAILBACK CONTAINERS FOR AMALGAM WASTE

Left-over bulk amalgam, spent capsules, and disposable chairside traps and pump filters must be disposed of properly. Stay compliant with local regulations, ADA Best Management Practices and EPA Dental Amalgam regulations by recovering all waste amalgam in approved Amalgam Waste Recovery Containers.

HealthFirst carries the most cost-effective amalgam waste recovery containers in the industry. In addition, it is the only service that is specifically recommended by ADA Member Advantage.

## OnTraq

OnTraq, HealthFirst's practice readiness application, reduces the risks, headaches and costs of dental waste regulatory compliance. It dynamically shows what amalgam products you have active in the office and those that have been returned for processing. Rely on OnTraq's smart automation for dashboards, digital processing certificates, compliance reports and task management.
